

# Heart & Soil™ Ag Products

## ENGINEERED TOPSOIL

## Engineered Topsoil

**Revitalize and reclaim disturbed soils – naturally.**

Engineered Topsoil provides a cost-effective solution for your construction, reclamation and restoration projects. Engineered Topsoil is a nutrient-balanced vegetative growing medium that is superior to native/conventional loam and eliminates the need to strip existing fertile topsoil from another source.

Engineered Topsoil is the best source of local natural nutrients!

# BENEFITS OF USING ENGINEERED TOPSOIL

- Erosion resistant on 3:1 and steeper slopes
- Superior water-holding capacity
- More dense vegetative cover than with conventional topsoil
- Eliminates need to strip topsoil for reclamation

## Your Partner from Start to Finish

All **Heart & Soil®** products are produced locally and designed to enhance soil productivity and crop yields in a cost-effective and environmentally sound manner. Let our qualified staff assist you in determining the best application for your operation.

**Heart & Soil®**, a division of RMI, partners with farms throughout the Northeast to build healthy soils.
