

# SHINCCI-USA

Game Changer for Sludge Management  
**STOP HAULING WATER!**

## Shincci-USA Dryer

The Shincci-USA Dryer transforms wet sludge cake into 90% solids to create a Class A Biosolids Fertilizer. This belt dryer is simple, uses low heat and energy, and is the most cost-effective system on the market today.

Our goal for this next decade is to work with WWTFs  
to STOP HAULING WATER!

**This team is changing the sludge game for good!**

# BENEFITS OF INSTALLING SHINCCI DRYER

- Simple and effective belt dryer
- Low heat and energy
- Shincci-USA Dryer makes 90% solids to create Class A Biosolids in conformance with U.S. EPA Part 503
- No odor emissions
- Reduce tonnage by a factor of 4 to 5 times
- Final Class A Biosolids product that can be beneficially used in agricultural production, engineered topsoil or fuel for energy production

## Your Partners from Start to Finish

RMI has partnered with Sunstate Environmental Services to expand the opportunity for WWTFs to use this technology. Sunstate is the exclusive authorized Distributor of Shincci-USA dewatering and dehumidification technologies for North and South America. RMI is the exclusive Representative for Sunstate east of the Mississippi River.
